(SUPPLEMENT A-I OF THE AQUARIAN JOURNAL: EGYPT AND THE SACRAL PLEXUS. SATURN)  
Because of the critical conditions now developing in the international cycles, and also because of the obvious indications of the rapidly approaching Advent of The Aquarian World-Teacher, we are departing from our announced program of subject-matter. These matters will be fully explained and developed in the JOURNAL OF LIGHT which will be available to our Members in the next 30 days.

Beginning this evening, August Third, we will present a series termed generally TEMPLES OF LIGHT. The first of this Series is EGYPT. From eight to twelve weeks will be occupied with an analysis of the Twelve Temples, the Twelve Ideas or Principles of the Divine Evolutionary Pattern, and the Twelve Sacred Centers of Power to be found in the human body correlated to these Temples and Ideas. These Twelve Concepts will be illustrated with colored slides and graphs. And whenever possible we will present a motion picture of the country and people under consideration. We have been fortunate in securing an excellent movie of Egypt which we will include in our analysis tonight in the hope that you may be aided in your efforts to bridge the gap between modern times and that period, so many centuries ago, when Egypt was the Flower of Divine Knowledge.

For our Meditation we are using an especially dynamic recording of Mozart's Mass with the Agnus Dei Choir of Santa Cecilia, Rome. Thus whatever elements of psychic discord may hover about the pictures of Ancient Egypt will be transformed into vibrations of a noble and exalted character.

\*\*\*\*\*

For those who may not have followed our Reviews to this point, we will briefly recapitulate the Instruction concerning the Twelve Cosmic Centers of Divine Consciousness: There are Twelve Divine Ideas or Principles embodied in each human form. These Principles YOU ARE. There is a Cosmic Authority for each of the Twelve Principles. This Authority moves through one of the Twelve Planets which make up our solar-system. For example: The Cosmic Reality Who is the embodiment or personification of Love manifests Her Divine Nature thru the planet Venus. There is an Organ in each human body which receives the Vibrations called Love from this sublime Star of Love. Actually we are each receiving Love from the Supreme Presence of Love, BEHIND or WITHIN, the Star we call Venus. Certain Races or Nations of people have, from time to time, been the earthly receptacle of these highly specialized Rays from Venus, rather from The Goddess of Love within Venus. The history of these races or nations is the history of the quality of Divine Life which poured through them according to the Cosmic Timetable understood by all philosopher-astrologers.

In the gigantic struggle for political power which is filling all the world with terrible forboding and horror, we are witnessing the struggle of these Twelve Creative Principles as they move through the various nations which, in the present Cycle of Human Evolution, represent their highest developments. It is not so much a question of whether Russia shall overwhelm all the other nations of the planet, or whether the United Nations shall succeed in curbing the Communistic maelstrom that threatens to engulf the world. The question, seen from a Cosmic viewpoint is this: Shall Saturn, or Crystallization, overwhelm America, or Illumination, and thus destroy the Earth and its peoples.

THE FIRST CENTER OF CONSCIOUSNESS TO CONSIDER IS THAT WHICH HAS ITS LOCATION in the SACRAL PLEXUS, at the base of the Spinal Column. It is sometimes called the Root Chakra.. It is vitally concerned with the development of the Sacred Spinal Fire, the Immortal Cosmic Energy which is symbolized in the Ancient Wisdom by a Serpent. The Christian concept of the Devil or Satan is derived from the action of this Center or Chakra (Sanskrit for wheel.) Sut-Typhon, or Sa-Ton, was one of the most powerful gods in the Egyptian pantheology. He was given a special day of worship, Sat's Day, or Saturday. In the Hebrew system Saturn's Day is the Sab-bath, a day of total cessation from all action--since it was believed by the Hebrews that this day was so evil, or dangerous, nothing should be attempted on Saturdays. Terrible power was associated with this Chakra, and the gods who worked through it. In the word "typhoon" we see the same inference of great elemental force and evil.

The Sacral Plexus is always represented by the Four-square symbol. This is because it contains the four basic principles of the human personality. At times we see the triangle within the square, representing the higher nature or the spiritual triad which must be freed from the domination of the square. A coil, or a serpent, is frequently placed within the triangle, within the square to suggest the presence of the Cosmic Serpent or Divine Creative Power.

Saturn is the planetary Ray which moves through this center in all human forms, and in most animal bodies. The Basic Principle of Saturn is hardening or crystallization. This Principle solidified the skeletal system and makes it possible for us to function as independent human egos. This Principle is also that which causes death, or excessive condensation, hardening, in all bodies, mineral, animal and human.

During the many ages required for the Human Evolutionary Pattern to become established, Egypt, or that section of the globe now called Egypt or Upper Africa. The Nile River has for ages been symbolic of the Flaming River of Life which flows through the Spinal column of Man and certain animals. In this Sacred River there are Seven Cataracts, or turbulent sections, which make passage difficult for ships, and creatures of the water. In ancient times there were Seven Temples along this Sacred River, each cataract being the site of a Temple--and the colony of people who served in and through the Temple. The Seven Holy Cities of Amen were intimately related to these Seven Temples at the Seven Cataracts, or areas of magnetic disturbance.

All religions of the world, even those of ancient Atlantis, have been vitalized by this Spiritual Kingdom of the Planetary Forces which was established upon the globe shortly after the coming of the Kumaras, the Lords of Love, from the planet Venus. The first Christian Saints, Bishops and Interpreters of the Doctrine were the mystics of Egypt and Upper Africa. Jesus is known to have studied in the Temples of Egypt. There is a vital connection between early Egypt and India, quite as positive and legitimate as that of the father and son. The Temple of Jupiter-Ammon, in the oasis of Siwa (existing to this day) is intimately related to the Shiva Aspect of Hindu Brahmanism. From this Temple of Ammon our modern word "ammonia" is derived; since the Oracle of the Temple fell into a trance by inhaling fumes arising from a deep well in the ground, a river of subterranean ammonia gas. There are countless relations, correspondences and similarities which the alert and eager Student can work out for himself with great profit.

The secret significance of Iran, Suez, the British Empire, the Holy Land and related matters will be discussed by Gerald Light in his capacity as Oracle of the Lodge. (The Lodge Journal will eliminate your need for note-taking.)

This entry is to be used with the Supplement giving primary details concerning the Root Chakra, which was written for the general public and which, consequently, could not contain the information given privately here for our Lodge Group.

And while we have been studying the Twelve Cosmic Principles and their twelve variations, it will be quite feasible to take up the activities which are now manifesting in the world of nations which represent the Twelve Chakras. Here we might mention that the Supplement, page one and two, may be shared with your friends at your discretion. However, in view of the personal relationships which this Entry will consider, it might be the part of wisdom to refrain from entrusting these pages to any but those friends who have proven themselves, or have fully indicated they will not interfere with your own progress by doubts, questionings and subtle oppositions which may build up unfortunate barriers.

\*\*\*\*\*  
THE GREAT TEMPLE OF SATURN, AS MOST OF YOU ARE NOW AWARE, IS LOCATED IN EGYPT.

This Temple, like the other Eleven, has Twelve secondary or related Sanctuaries.

Before the Student is able to endure the intense Rays of the Mother Temple, which in this case is the Great Temple of the Pyramid which all the world knows of in one way or another, the Student must have spent sometime in each of the Twelve Sanctuaries affiliated with the Mother Temple, or Lodge. Each of these Sanctuaries, or Courts as they are sometimes called, will provide the Student with a foretaste of the Vibrations he will be obliged to take into his body, if and when he enters The Great Temple. Simply stated, any Temple experience is simply a matter of vibratory charging and discharging of magnetic currents in and through the Chakras related to the Temple. Were the Student to, in some way, enter The Mother Temple before he had conditioned his body to receive and endure the Vibrations, or magnetism, of the Sanctuaries--he would be electrocuted. Quite in the same way our lungs are required to have a certain mixture of the gases in the air we breathe, and lacking that mixture we are suffocated (not for lack of air--but the kind of air, or gases, we are accustomed to). Just as there are races of people who can live comfortably in the thin air of the high mountains (Tibet and Peru) and who suffer greatly in seaside cities, which we find very comfortable, so too must we become acclimated or conditioned to the different Vibrations, or chemicalizations, which charge through our bodies when we enter the various Temples of The Brotherhood of Wisdom.

To continue the Temple analysis: Each of the Twelve Sanctuaries which are a part of the Major or Mother Temple or Lodge, each of the Secondary Courts are also divided into Twelve. The alert Student will see at once the symbolic meaning of the statement in the Christian Bible concerning the Elect numbering 144,000! There are thus 144 thousand Vibrations to be found in all the different groupings of human beings who make up the people of our planet. This explains the vast variation, the diversity, which makes it possible for us all to be similar in many ways to each other--yet vastly different in other ways.

The implication here is not that each human Ego must experience all of these 144 thousand Vibrations in order to complete his perfect pattern. Such a situation would require perhaps 12 thousand reincarnations, or more! This is not only unnecessary but impractical from an evolutionary standpoint.

\*\*\*\*\*

THERE ARE SPECIFIC TIME SCHEDULES WHICH THE TWELVE TEMPLES, AND THEIR AFFILIATES follow carefully. The entire period of twenty-four hours is divided sections in which the different Temples, or Rays of Consciousness emanating from Them, are said to be in operation.

The special hours in which the Cosmic Rays are projected into the Great Pyramid, and thus out into the bodies of all Mankind, and certain animals, are as follows:

From THREE to SIX, in the morning. From THREE to SIX in the afternoon. These hours are not to be confused with the Saturn hours of Astrology, which are given in various Astrological textbooks. An Astrological Saturn Hour can be at any time of the twenty-four---and has no connection with the Temples. There is, of course, a definite relationship with the Saturn Hours of Astrology and the Hours of the Temple of Saturn. But it is too complicated to discuss here; and it will prove confusing for the average Student to try to interpret it.

There are therefore six hours out of the twenty-four in which the Rays from the Temple of Saturn are in effect and moving through the Root Chakra at the base of our Spinal column. When it is Three oclock at your place upon the planet, you are in touch with the Temple Rays of Egypt--regardless of the variations in the time-zones. How and why this is true is a profound principle of the Inner Planes where time does not exist, where there is no space, no yesterday, nor a tomorrow. In the Great World of Reality there is only the Eternal NOW. Consequently, those of you who are members of the Saturn Temple, or any of its Sanctuaries, will find these hours of three to six, morning and afternoon, hours in which it is very easy to touch your Temple and charge yourself with its pure currents of Cosmic Magnetism.

Of the Twelve Sacred Courts or Sanctuaries of The Great Mother Temple at Heliopolis, seven may be named, (not however in order of power or importance.) Siwa, Thebes, Memphis, Amarna, Aswan, Khartoum, and Phyllos. The remaining five are revealed only to Initiates, and their nature is never publicly discussed, other than to hint that they have much to do with our five physical senses.

Within the Twelve Temples of Egypt is to be found the beginning and ending of all life upon our world. Words would never be able to contain any but a tiny fragment of the glories and magnificences which have surrounded these Temples down through the ages. The insignificant bit of history we possess today concerning the fabled land of Cleopatra is ridiculously childish in the conclusions it seeks to make about these ancient Peoples of God, for so they were. All nations, of any consequence, have a Divine Destiny to express and develop one central Ideal or Principle. With Egypt, and all the glamorous dynasties which have added to her glory, the central feature was--KNOWLEDGE. And as long as this Knowledge was used with Wisdom Egypt prospered and grew mightily in the Ways of the Lord, The Great Initiator. When, as with all nations, she grew careless in her use of supreme Knowledge, night fell upon Egypt. Today she is spoken of in the circles of the Magi as the Land of eternal darkness.

Within the Twelve Temples of Knowledge which lie along the Great River of Life, Ni-Hal, are to be released currents of power which will sweep over all earth in the remaining fifty years of this century. The basic purpose of these currents is to solidify, crystallize and harden all patterns, both good and bad. The intelligent Student thus realizes that many changes are indeed at hand, for the crystallizing Rays of Saturn are invincible. All that is evil will be destroyed through sheer excess. That which is good will be intensified until its glory will surround the earth--and proclaim The Light of Egypt, returned, redeemed, arisen and forever shining forth to all Mankind, The Christ.

THE GREAT PYRAMID WHICH STANDS UPON THE ANCIENT SITE OF HELIOPOLIS (CITY OF THE SUN) and known today as modern Cairo, is the most important of all the various Temples of The Great White Brotherhood. Since this is true, it follows that the mysterious Artery of Africanus, the River Ni-Hal, is also the most sacred of the Twelve Veins of Brahman which encircle this earthly body of God.

Just as there are twelve mystic Streams of Life within our human bodies, so in the Universal-Body of God, our earth-globe, are there twelve Streams of Liquid Life and Cosmic Energy coursing mightily through the twelve Sacred Lands of our physical sphere with its two thousand millions of cells, or separate human beings.

Every great nation which has been founded by The Elders Brothers of Humanity, has been built around a Sacred River which in a most intimate way has been associated with The Supreme Creative Power. There is also a Sacred Lake, or Unique Body of WATER, which has occupied a prominent place in the personal and public history of the nations and their peoples.

(The River Jordan is extremely important in the Old Testament; and the Sea, or Lake, of Galilee is equally important in the New Testament. To the Hindus, the River Ganges, or Mother Ganga, is quite as important to India as Jordan is to the Jews. The Sacred Lake of Manosawara in the Tibetan highlands is regarded as the Mystical Essence of the Spirituality which has filled India for ages. The Student is asked at this point to make a personal effort in locating the other ten Sacred Rivers in the other ten Sacred Nations. Later the correct answers will be given in an appendix to this entry.)

NOTE: The Student may be further interested, we hope, in the knowledge that here in America there can be found Twelve Sacred Rivers, each with their Sacred Sea or Lake, in the Twelve Sacred Centers of the hemisphere. The uniqueness of the People of America is that they embody representatives of all the Twelve Sacred Nations. And each of the separate features of the Ancient Nations, or Families, of God is to be found in our wonderful hemisphere.

By using his own body as a Key it is possible for the thoughtful Student to open the gates that reveal the Twelve Cosmic Laws of his Nature and Being. All that is to be found within his body is to be found, duplicated and enlarged, in the Great Body of God, his Father, which we call the physical globe.

Each of the Twelve Sacred Nations is guarded and directed by the consecrated members of Twelve Chambers of The Holy Lodge of Light. There are thus 144 Chambers of the Universal Lodge which was founded far in advance of the various family groups now manifesting on the globe.

In America, Twelve Major Temples of The Mother Lodge will, eventually, be in operation to guide, guard and sustain The Supreme Principles of the Universal Kingdom of Man, which will have its Capital, its Temple and its Tribunal in this divinely conceived country. This explains the great number of "Elder-Souls" who are incarnating as members of the American Commonwealth.

This Supreme Plan, ordained ages of ages ago by The Great Brothers of Light, was deposited in The Great Pyramid when it was constructed, nearly a million years ago. For this reason, the Initiation of the Egyptian Hierarchy is considered the most important, and the most difficult to complete. Every genuine Soul who has served as a Saviour, World-Teacher, or Exemplar, has been required to take The Egyptian Mysteries and successfully complete them before he was allowed to assume the great responsibilities of giving forth The Law of his Age.

\* \* \* \* \*

THE THOUGHTFUL STUDENT BY NOW MUST BE COMING MORE AND MORE AWARE OF THE GREAT Science which lies within The Ancient Wisdom. The tremendous significance of his own body should now be taking a place in his program of development which he could hardly have understood when he was wandering in the vague and inexact fields of devotional and mental systems.

This present series of lessons is part of TECHNIC HARMONICS, as distinguished from BASIC HARMONICS which is available to the general public. These lessons should make it abundantly clear why it is impossible to hand the Ancient Wisdom forth to all with no selection or discrimination.

One of the truly magnificent features of this Instruction is the preparation of the Student for his entrance into the subtle world of "heaven"--an experience which each of us will have someday. If the Student succeeds in laying the four-square foundation of his Personal Pyramid while he is yet in this physical or outer plane, he may continue his instruction, his development and his personal evolution FROM THE OTHER SIDE OF LIFE. And above all the various advantages he will be heir to, none is more important than his prerogative to choose whether or not he will return to this physical world of suffering and struggle. By laying the exact foundation of his personalized-self in perfect accordance and harmony with The Cosmic Laws, the Student may rise forever free from the painful necessity to return again and again to take up a fleshly existence as a mortal Earthling.

A further advantage of tremendous importance to the Members of our Sacred Lodge of Light is this: Each member is a eternal part of our Temple Family. Regardless of where he may be physically, he will still be under the Blessing of The Lodge and a part of Its Ray. This means that his personal world and affairs, both of this plane and the spiritual zones, are constantly under the guidance and protection of The Elder Brothers who watch over him night and day.

In times of danger and disaster the Student, who has consecrated his life and his being to the Ministry of The Christ, will find himself automatically drawn or directed to places of safety and supply. This may be done by a direct and personal communication from the Elder Brothers of the Lodge, or it may be the result of his own Over-Soul prompting him to make the necessary changes in his family and affairs which will provide him with safety and security in whatever way his greatest good requires them.

And while at no time does the element of money, fees or financial charges ever enter into this Temple Instruction, there is a price each Student must pay. It is a price only he can pay. No one knows in advance what it may be, for his own Christ-Self will exact it of the lower personality. Consequently, it will be a price which he CAN pay--for the Christ of each personality knows to the ounce what resources of strength, energy, faith, love, devotion, etc., the human consciousness contains. And therefore the payment will be just. It is a payment made to no other human being, to no society, church, organization or group. It is a payment made to Life itself. Life knows nothing of money or gold or precious things which our commercial world values greatly. Your payment must therefore be that which you really possess, that which comes out of the depths of your personal suffering and struggle, your individual experience, your hopes and dreams, your successes. And your failures. You alone can know whether or not you have paid back to Life your debt in full, heaped up and running over, in true and just Biblical measure.

My Love and Blessings to each of you,

GERALD LIGHT.
